Post Mounting Bracket for Solar Panels 5W, 10W & 20 W

The Post Mounting Bracket for Solar Panels 5W, 10W & 20W is a new product to Green Systems. The post mounting bracket is adjustable from 20° - 60° catering for use through out the whole of Australia.

Green Systems, by Sealife Pty Ltd, is accredited to ISO 9001:2000. Attesting to our commitment to constantly strive to improve the quality of our products, to optimise our production and always deliver exceptional customer service.

Application

The Post Mounting Bracket has been designed specifically for solar gate installations, although this bracket can be adapted for use for the following situations.

- Automated Property Gates
- Pond pumps
- Electric Fences

"We've seen the opportunity to fill the gap in the manufacturing market. The Solar Panel Post Mounting Bracket is versatile, adaptable and it works."
